Product Description

Car Rear Double Camping Tent Car Side Self-Driving Car Multi-Function

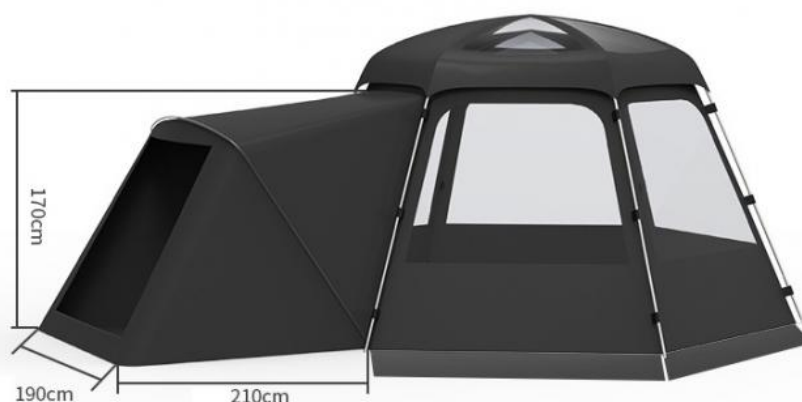

A "Car Rear Dome Tent" refers to a type of camping tent designed to be attached to the rear of a car or vehicle. These tents are specifically shaped to extend from the back of a vehicle, providing an additional sleeping or living space. They often utilize the rear hatch or tailgate of the vehicle as an entrance or extension, effectively creating an enclosed area that connects to the car.

Car rear dome tents are popular among campers and outdoor enthusiasts as they allow for convenient access to the vehicle's interior and gear storage while providing a sheltered and elevated sleeping or lounging area. These tents are commonly used for camping, road trips, and other outdoor adventures.

They come in various designs and sizes to accommodate different vehicle types and camping preferences. The term "dome" typically describes the tent's shape, with a rounded or curved roof for stability and efficient use of space. The rear dome tent attaches to the vehicle and is often secured with straps or anchors to ensure a snug fit.

These tents are particularly useful for those who want to enjoy the outdoors while having quick access to the car's amenities and supplies.

Size

CAR TAILGATE TENT EXTENSION DOME TENT

Transparent TPU Skylight & Windows / PU 5000mm & UV Coating / Capacity 14-20 Person

Car rear bell tent combines a hexagonal dome design, allowing it to be used both as a rear car tent and as a standalone hexagonal or dome tent.

The hexagonal dome structure provides a spacious interior and features TPU panoramic skylight cover and mesh windows for optimal ventilation, ensuring airflow and keeping mosquitoes out, and with replaceable TPU layer, providing a warm environment in winter and a cool one in summer.

It can be connected to bedroom tents, accommodating multiple families without interference, offering a refreshing and comfortable experience in nature.

Moreover, the hexagonal dome ball tent can also serve as a large living room on its own, providing shelter from wind and rain. Whether for refined camping or road trips, it enhances your camping

experience with added comfort and relaxation.
